

## NAC procures ARMS software

Nepal Airlines Corporation has (NAC) has signed an agreement with Sheorey Digital System Pvt Ltd for the integration of new advanced software systems.

NAC officials said that they were procuring a new software system to enhance efficiency of the national flag carrier.

According to a statement issued on Sunday, Managing Director of NAC, Sugat Ratna Kansakar and Executive Director of Sheorey Digital Systems, Rohit Jha signed the agreement on behalf of their respective organizations.

The new Aviation Resource Management System 2.5 (ARMS) software will help NAC to work more precisely on procedures related to flights, maintenance, repair and overhaul (MRO). The software is expected to increase the quality of work and bring positive changes in NAC's working environment, added the statement.

The new system will also help the national flag carrier keep track of its inventory and expiration date of aircraft spare parts. It also helps to keep track of training, roster and crew management, including Flight Safety, quality assurance and document management system.
